**An Exciting Offer for Boys and Girls from the
NATIONAL AUDUBON SOCIETY:**

**Imagine ... "getting to know"
these playful**

Animal Children for only 10¢

TREE-TOP TEDDY BEAR. The lovable Koala is actually not a bear at all. He lives his entire life in the Australian treetops, and eats nothing but eucalyptus leaves.

WORLD'S ODDDEST BABY. He's hatched from an egg like a bird—yet he has fur like a bear, a bill like a duck and webbed feet like an otter. He's the Platypus, a living relic of prehistoric times.

THESE BABY STORKS of North Europe are taught to fly by their parents. Later, the young ones—who have never been more than a mile from their home nests—find their own way all alone down the entire length of Africa to the storks' winter grounds!

WATER BABY WHO'S AFRAID OF WATER. He actually has to be taught to swim! In fact, the mother seal often has to shove her unwilling baby into the sea for his first dunking.

PIGGY-BACK ACROBAT. Long before he's old enough to travel on his own, baby Gibbon takes incredible flights through the jungle, clinging to his mother's fur.

BORN MASTER OF CAMOUFLAGE. The fawn's dappled coat blends with the forest background. But that's not all—he can actually subdue his natural scent so that an enemy may pass without noticing him.
